WHITE HOUSE COMMUNICATIONS AGENCY

THE WHITE HOUSE
WASHINGTON, D.C. 20500-0001

WHCA-D

APR 7 1986

MEMORANDUM FOR THE DEPUTY DIRECTOR FOR ADMINISTRATION, CIA

ATTN: Richard J. Kerr

SUBJECT: T1 Interconnectivity

1. The White House Communications Agency is developing a working group to streamline and reduce commercial telephone circuits costs within the Washington, D.C. area.
2. A reduction of individual circuits between agencies can be effectively implemented by utilizing T1 (1.544 MB/s) trunk circuits between servicing technical controls/red switches.
3. In order to determine the impact of this effort on your agency, request you assign a representative to work with our technicians to outline specific problem areas and concerns. For more information on this project, please contact our representative, Randall C. Swanson. He can be reached in our Plans Network Branch at 395-5587.
